SEE PAGE 3 FOR ELECTRONIC FILING INFORMATION**

FROM THE COMMISSIONER

Electronic filing continues to be extremely popular. We thank all 661,000 of you who filed your income tax return electronically last year, making Georgia the national leader in the joint electronic filing program for the 1998 tax year. We encourage you to again file electronically this year. It has significant advantages over paper filing including faster processing, fewer errors, and much faster delivery of your refund. This year we have expanded electronic filing to include part-year and nonresident returns. Returns may be filed electronically in one of two ways. You may use a preparer who is a registered electronic returns originator (ERO) or you may choose to file on line by following the instructions found at our website: <http://www2.state.ga.us/departments/dor>.

Should you have any questions about your return, we have taxpayer assistance representatives in our eleven regional offices whose telephone numbers appear on Page 18. You may also find the Georgia Department of Revenue website helpful in explaining frequently asked questions and in providing additional helpful information. Finally, please take a minute to double check your return to avoid delays in processing and the delivery of your income tax refund.

Our mission is to serve you in a prompt, courteous and professional manner. We welcome your comments and suggestions on how we may be of further assistance to you.

T. Jerry Jackson
Commissioner

NEW DEVELOPMENTS, REMINDERS AND HINTS FOR TAX YEAR 1999

Label Your label is inside the back cover. **Do not use the label if the information shown is no longer correct.**

Retirement Income Exclusion The retirement income exclusion is increased to \$13,000, effective January 1, 1999.

Self Employed If a self employed individual takes a social security credit as provided in IRC Section 38, you are allowed a deduction equal to the credit. The adjustment is made on page 3, Schedule 1, line 9 of Form 500 and is effective January 1, 1999.

Self Employed Health Care Deduction House Bill 1116 enacted a provision to allow a self employed person to deduct 100% of the cost of health care insurance for the taxpayer, spouse and dependents of the taxpayer. The adjustment is on page 3, Schedule 1, line 9 of Form 500 and is effective for tax years beginning on or after January 1, 1999.

Innocent Spouse Relief House Bill 56 enacted a provision for joint and several liabilities commonly known as innocent spouse. The provision is effective for tax years beginning on or after January 1, 1999. If you qualify under Federal Innocent Spouse Rules, you may qualify under this provision.

Individual Retirement Accounts The provisions concerning the taxability and conversions from a traditional IRA to a Roth IRA are the same for Georgia as they are for the Internal Revenue Service.

Form 500ES Form 500ES is included in this booklet and can be used to file estimated tax. If you use it, be sure to check the correct box so your payment will be applied to the correct account. After filing Form 500ES, you will receive a coupon booklet for future estimate payments.

Form IT-560 Form IT-560 is included in this booklet and should be used to make prepayment of the tax when filing under an extension of time for filing. See page 6 of this booklet for further instructions.

TO OBTAIN MORE INFORMATION ON THE ABOVE ITEMS, SEE PAGE 18 FOR TAXPAYER ASSISTANCE TELEPHONE NUMBERS.

FEDERAL RETIREE REFUNDS

Federal retirees who are receiving refunds for tax years 1985 through 1988 under House Bill 3 or 90 are exempt from paying Georgia income tax on the interest received with these refunds. (See Line 9 instructions on page 7 regarding subtracting it from the Federal Adjusted Gross Income.)

INSTALLMENT PAYMENTS

If you cannot pay the full amount due as shown on the return you file, you may ask to make monthly installment payments. Note, however, that interest and late payment penalties will apply to any amount not paid by April 17, 2000, even if your request to make installment payments is granted. Before requesting an installment agreement, you should consider less costly alternatives, such as a bank loan.

To apply for an installment payment plan, complete and file your return by the return due date. To limit the interest and penalty charges, pay as much of the tax as possible before April 17, 2000. When you receive a bill for the balance due, submit a written request for an installment payment plan to

the Installment Program Section, P.O. Box 740396, Atlanta, GA 30374-0396.

Federal Audit. Whenever a Federal audit or other Federal adjustment results in a change in your net income, you are required to furnish a copy of the results to the Georgia Income Tax Division. See page 6 for details.

Include your Social Security Number on any correspondence or payments made to the Georgia Income Tax Division.

Filing Dates. Calendar year taxpayers for 1999 are required to file on or before April 17, 2000. All other taxpayers must file on or before the 15th day of the fourth month following the close of their taxable year.

TAX TIPS

1. If you or your spouse is 62 years of age or permanently disabled, see page 7 of the instructions for the retirement income exclusion.
2. All claims for **low income tax credit for the 1999 tax year** including any amended claims must be filed on or before December 31, 2000.
3. Do not use Form 500X as an original return. Form 500X is used to amend a previously filed tax return.
4. You are not required to submit 1099 statements with your Georgia Individual Income Tax return unless Georgia tax has been withheld.
5. **Nonresidents** who receive income from Georgia sources may prorate Georgia income to exclude temporary assignments to duty stations outside Georgia. The formula to prorate Georgia income must take into consideration the following guidelines:
 - a. Georgia regulations require that Georgia income must be calculated to reflect the total number of actual working days inside Georgia compared to the total number of actual working days employed both inside and outside Georgia.
 - b. All time excluded must be actual time worked outside Georgia.
 - c. Taxpayers may be required to provide documentation from employers verifying all time worked outside Georgia on temporary assignments.

REMINDERS

It is important that all information reported on your tax return is correct and readable. Follow the instructions in this booklet when preparing your return. Do not use last year's return as a guide to completing this year's return. If you need help with the instructions, call Taxpayer Assistance (phone numbers are on page 18).

Incorrect or omitted Social Security Numbers and names will delay the processing of your return. **Verify that your name(s) and Social Security Number(s) are correct on your return.**

PLEASE NOTE: Forms are designed for imaging. Whether you type or write in the information, use **black ink**. Be sure to stay within the squares and be sure all information is readable. **Do not use extra fine point pen.**

RESIDENTS You are required to file a Georgia Income Tax Return if any of the following apply: (a) You are required to file a Federal income tax return; (b) You have income subject to Georgia income tax but not subject to Federal income tax; (c) Your income exceeds standard deduction and personal exemption(s). These requirements apply as long as your legal residence is Georgia even if you are temporarily absent from the State or live outside the State temporarily. **A full year resident of Georgia is taxed on all income regardless of the source and regardless of where derived. The Georgia resident is allowed a credit for taxes paid to a nonresident state.**

PART-YEAR RESIDENTS If you are a legal resident of Georgia for only a portion of the tax year, you are required to file a Georgia income tax return on Georgia Form 500 if you are required to file a Federal income tax return. Part-year residents are generally taxable only during the time they were residents of Georgia. A full explanation of how to compute the tax for part-year residents is given on page 12.

NONRESIDENTS If you are a nonresident who works in Georgia or who receives income from Georgia sources and are required to file a Federal income tax return, you are required to file a Georgia income tax return on Georgia Form 500. If you are a legal resident of another state, you are not required to file a Georgia Income Tax return if your only activity for financial gain or profit in Georgia consists of performing services in Georgia for an employer where the remuneration for services performed does not exceed five percent of the income received in all places during the taxable year. A full explanation of how to compute the tax for nonresidents is given on page 12.

FILING DATES Calendar year taxpayers for 1999 are required to file on or before April 17, 2000. All other taxpayers must file on or before the 15th day of the fourth month following the close of their taxable year.

MILITARY PERSONNEL

RESIDENTS. Military personnel whose home of record is Georgia or who otherwise are residents of Georgia are subject to Georgia income tax upon all income regardless of source or where earned, unless specifically exempt by Georgia law. The time for filing tax returns and payment of tax by members of the armed services of the United States returning from service outside the continental United States is extended without application to any time within a period of six months immediately following the return of the military person to the continental United States. No penalties or interest will accrue during this period.

NONRESIDENTS. Nonresident military personnel whose home of record is not Georgia and who are not otherwise a resident of Georgia are not required to file a Georgia income tax return unless they have earned income from Georgia sources other than military pay. If they have earned income in Georgia from sources other than military pay, they are required to file Georgia Form 500, completing page 4, Schedule 3 of Form 500. Married nonresidents with income earned in Georgia whose spouse is a nonresident with no Georgia source income may file either a separate return claiming themselves only, or a joint return claiming total personal exemption and credit for dependents, prorated per Schedule 3. Schedule 3 must be completed for computation of Georgia taxable income. (See instructions for part-year and nonresidents on page 12.)

NOTICE: If one spouse is a Georgia resident and one spouse is a nonresident or part-year resident, put #3 in the residency code box on Form 500, page 1, line 4, and use page 4, Schedule 3.

AMENDED RETURNS

Do not use Form 500 to amend or correct your return, use Form 500X. Form 500X cannot be used as an original return. It is to be used to correct a return which has already been filed. This form is available at any of the Regional Offices listed on page 18 or can be ordered by calling (404) 656-4293.

CLAIMS FOR REFUND

A claim for a refund of tax must be made within three years from the date the tax was paid. Taxes which have been paid by withholding or estimated tax are treated as having been paid on the regular due date of the return. An extension of time to file the return would not extend the deadline for filing a state claim for refund. For example, if payments were made with respect to the 1996 tax year on or before the April 15, 1997 due date of the 1996 tax year, the taxpayer must file any claim for a refund of such tax by April 15, 2000. An extension of time to file the 1996 return would not change the April 15, 2000 deadline for filing a state claim for refund.

GENERAL INFORMATION FOR FORM 500 (continued)

DELINQUENT RETURNS

An individual income tax return must be filed within three years from the date the tax is paid in order to receive a refund on any overpayment of tax. **Returns filed after three years from the date the tax is paid are barred from refund by the statute of limitations. No exceptions are provided in the code.**

FEDERAL AUDIT

Whenever a Federal Audit or other Federal Adjustment results in a change in net income for any year, you are required to furnish under separate cover, within 180 days, a schedule reflecting the changes to the Income Tax Division, Department of Revenue, P.O. Box 740385, Atlanta, Georgia 30374-0385. **If you do not submit a return reflecting the change and the Commissioner receives the report from the United States Government, the Commissioner will make the assessment for tax due within five years from the date the report is received from the United States Government.** If it is determined there has been an overpayment of tax for the year, failure to notify the Commissioner within 180 days will result in the forfeiture of your right to any refund as a result of the change or correction.

INCOME FROM S CORPORATIONS

Georgia automatically recognizes an election granted by the Internal Revenue Service for S Corporations when the election is based on the Internal Revenue Code of 1986. All non-resident shareholders must pay Georgia income tax on their portion of Georgia corporate income or the election will be terminated by the Commissioner. Resident shareholders shall report their total S Corporation income. All distributions received by a shareholder from earnings and profits accumulated prior to a corporation acquiring Georgia S Corporation status must be reported as dividends.

PARTNERSHIPS

All resident and nonresident partners must pay Georgia income tax on their portion of the Partnership's net Georgia income.

NONRESIDENT COMPOSITE FILING AND WITHHOLDING ON DISTRIBUTIONS

Effective January 1, 1994, withholding is required on any distribution made by Partnerships, Limited Liability Companies and S Corporations. As an alternative to withholding, the entity may file a composite return for its nonresident members. This form is available upon request. (See page 16 for ordering forms.) The entity may receive forms to register for withholding by calling (404) 651-8651.

EXTENSION OF TIME FOR FILING RETURN

There are two ways to obtain an extension for filing your Georgia Income Tax Return: 1) Georgia will accept a copy of the Federal extension attached to the Georgia return when filed; or 2) You may file an extension on Georgia Form IT-303. If Form IT-303 is used, it must be filed by the return due date.

An extension to file extends the filing date of the return. It does not extend the date for paying the tax. The tax must be paid by the statutory due date to avoid late payment penalty and interest.

Taxpayers should use Georgia Form IT-560 if they expect to owe any tax. Form IT-560 is not an extension. It is used to pay any expected balance due by April 15th when the return itself will not be filed by the due date. The amount paid with Form IT-560 is entered on line 20 of the Georgia Form 500.

If any amount is still owed when the return is filed, add 1/2 of 1 percent late pay penalty and 1 percent interest per month or fraction of a month from the statutory due date until paid.

Part-year residents and nonresidents must compute their Georgia taxable income using SCHEDULE 3 of Form 500, page 4.

TIP **LINE 5** You must use the same filing status you used on your Federal return. Write the letter for your status in the filing status box. If you filed as unmarried head of household or surviving widow(er) with a dependent child on your Federal return, write D in the filing status box.

LINE 6 Number of exemptions from Federal Form 1040 or 1040A. **Exception:** If you are claimed by a parent or guardian on his/her Federal return, you need to claim one exemption on your Georgia return.

LINE 7 List your dependents in the space provided on Form 500.

STEP 3 Income

TIP **LINE 8** From your Federal Form 1040, 1040A or 1040EZ enter your adjusted gross income. **Do not use Federal taxable income.**

LINE 9 Some forms of income are taxable by the Federal government but not taxable by Georgia and vice versa. If you have income that falls in this category, you must adjust your Federal adjusted gross income to determine your Georgia adjusted gross income. This is accomplished by explaining your adjustments on page 3, Schedule 1, Form 500. Enter the total adjustments from Schedule 1 on line 9. **Income earned in another state as a Georgia resident is taxable for Georgia purposes. Credit for taxes paid to other states may apply. See line 17 instructions.**

ADJUSTMENTS THAT MAY BE ADDED ARE:

1. Interest received from non-Georgia municipal bonds and dividends received from mutual funds that derived income from non-Georgia municipal bonds.
2. Loss carryovers from years when you were not subject to Georgia income tax.
3. Lump sum distributions reported on IRS Form 4972 from employee benefit plans.
4. Depreciation because of differences in Georgia and Federal law in tax years 1981 through 1986.

ADJUSTMENTS THAT MAY BE SUBTRACTED ARE:

1. Georgia taxes all pensions of all residents. However, Georgia law provides a retirement income exclusion of up to \$13,000 per taxpayer provided one of two conditions is met:

- (A) The taxpayer is 62 years of age or older, or
- (B) The taxpayer is totally and permanently disabled and cannot work at all.

Under either condition, taxpayers must qualify on a separate basis. One spouse may not use any income attributable to the

other spouse in the calculation of his/her retirement exclusion. The \$13,000 exclusion is not automatic and must be documented on Schedule 1 of Form 500, page 3. If property is jointly owned, income derived is allocated to each taxpayer at 50 percent of the total. Of the \$13,000 maximum exclusion per taxpayer, up to \$4,000 per taxpayer may be earned income. Part-year or nonresidents must prorate the exclusion. You must enter the date of birth and/or the type and date of disability on Schedule 1 of Form 500, page 3 or the exclusion will not be allowed. **Use worksheet on page 13 to compute the exclusion.**

2. Interest, dividends on U.S. Government bonds and other U.S. obligations. **NOTE: Interest received from the Federal National Mortgage Association (FNMA), Government National Mortgage Association (GNMA), Federal Home Loan Mortgage Corporation (FHLMC), and interest derived from repurchase agreements are not considered to be obligations of the United States and are taxable.**

3. Social Security or Railroad Retirement paid by the Railroad Retirement Board that are included in Federal adjusted gross income.

4. Salaries and wages reduced from Federal taxable income because of the Federal jobs credit.

5. Individual Retirement Account withdrawals where tax has been paid to Georgia because of the difference between Georgia and Federal law for tax years 1981 through 1986.

6. Keogh, SEP and SUB-S plan withdrawals where tax has been paid to Georgia because of the difference between Georgia and Federal law for tax years 1981 through 1986.

7. Depreciation because of differences in Georgia and Federal law in tax years 1981 through 1986.

8. Georgia resident shareholders of Subchapter S corporations may make an adjustment to Federal adjusted gross income for Subchapter S income where the Subchapter S election is not recognized by Georgia or by another State. The adjustment is allowed in order to avoid double taxation on this type of income. Therefore, this adjustment will be allowed only if tax was actually paid by the corporation to other state(s). In cases where the Subchapter S election is recognized by the other state(s) the income should not be subtracted. Credit for taxes paid to other states may apply. Refer to line 17 on page 8.

9. Dependents' unearned income included in parents' Federal adjusted gross income.

10. Income tax refunds from states other than Georgia included in Federal adjusted gross income. Be sure to indicate the applicable state. Do not subtract Georgia income tax refunds included in Federal adjusted gross income.

11. Income from any fund, program or system which is exempted by Federal law or treaty.

12. Teacher's Retirement - The purpose of this adjustment is to allow a teacher retired from the Teachers Retirement System of Georgia to subtract contributions previously taxed by the State of Georgia. These are contributions paid between July 1, 1987, and December 31, 1989, provided such contributions were reported and taxes paid thereon.

13. Interest paid to Federal retirees on Form 1099 INT under House Bills 3 and 90.

14. Social Security credit claimed on the Federal return.

15. The difference between the total cost of health care insurance and the allowable deduction taken on the Federal return for a self employed person, their spouse and dependents.

FORM 500 INSTRUCTIONS (continued)

LINE 10 Georgia adjusted gross income (Net total of line 8 and line 9).

STEP 4 Deductions

LINE 11a, b & c If you use the standard deduction on your Federal return, you must use the standard deduction on your Georgia return. Standard deductions are listed below. **Do not use the standard deduction from your Federal return.**

TIP

Single/Head of Household	\$2,300
Married Filing Joint	\$3,000
Married Filing Separate	\$1,500
Additional: Line 11b	\$1,300

(The additional deduction applies if you are age 65 or older, or blind. It applies only if the standard deduction is used. The additional deduction can apply to you and/or your spouse. Enter your standard deduction on line 11c.)

NOTE: FILL IN EITHER LINE 11C OR 12, NOT BOTH

TIP

LINE 12 If you use itemized deductions on your Federal return, you must use itemized deductions on your Georgia return. Adjustments must be made for income taxes other than Georgia and investment interest which is for the production of income exempt from Georgia income tax. When Federal itemized deductions are reduced because of high income, the reduced amount is used as the beginning point in computing Georgia itemized deductions.

LINE 13 Subtract either 11c or 12 from line 10 and enter on line 13.

LINE 14 Multiply the number in the block, on Line 6, by \$2,700.

LINE 15 Subtract line 14 from line 13 and enter on line 15. If the number is negative, enter zero. **THIS IS YOUR GEORGIA TAXABLE INCOME.**

STEP 5 Tax Computation

Use this line if you're taking credit for income taxes paid to states other than Georgia. **No credit for taxes paid to other state(s) will be allowed unless a copy of the other state(s) income tax return is attached.** Use the worksheet on page 11 for the computation of other state(s) tax credit for full and part-year residents. If you paid tax to more than one state, use the total of other state income to compute the credit. No credit is allowed for income earned in another state if that income was not taxed by the other state. **Your credit may be less than the tax paid to the other state(s).**

Before requesting an installment payment plan, you should consider less costly alternatives, such as a bank loan.

To apply for an installment payment plan, complete and file your return by the return due date. To limit the interest and penalty charges, pay as much of the tax as possible before April 17. When you receive a bill for the balance due, submit a written request for an installment payment plan to the Installment Program Section, P.O. Box 740396, Atlanta, GA 30374-0396.

Employer's Credit for Basic Skills Education. Business enterprises may benefit by providing or sponsoring basic skills education that enhances reading, writing or mathematical skills up to and including the 12th grade.

Employer's Credit for Approved Employee Retraining. Retraining programs must enhance the functional skill of employees otherwise unable to function effectively on the job due to skill deficiencies or who would otherwise be displaced because such skill deficiencies would inhibit their utilization of new technology.

Employer's Jobs Tax Credit. A statewide jobs tax credit for certain business enterprises that have hired sufficient numbers of employees. Three tiers for the credit have been established.

Employer's Credit for Providing or Sponsoring Child Care for Employees. Employers who provide or sponsor child care for employees are eligible for a tax credit up to 50% of the direct cost of operation to the taxpayer. The credit cannot exceed 50% of the taxpayer's total state income tax liability for that tax year.

Manufacturer's Investment Tax Credit. This credit is based on the same tiers as the Jobs Tax Credit and requires certain minimum expenditures in order to be claimed against the income tax liability. Credit may be claimed beginning with the tax year immediately following the year in which the minimum expenditures for investment property have occurred. To be eligible, a taxpayer must purchase or acquire qualified investment property pursuant to an approved project plan.

Optional Investment Tax Credit. The credit is similar to the regular investment tax credit. However, there are higher spending thresholds, as well as a 10-year calculation. As with the Manufacturer's Investment Tax Credit, prior approval is required.

FUTURE TAX CREDITS

Child Care Credit. The previous child care credit was repealed and replaced by a new child care credit to be calculated in two stages. The first offers a tax credit to an employer who provides or sponsors child care for employees. The second allows for a credit for the taxable year in which the taxpayer first places in service qualified child care property and for each of the ensuing nine taxable years. **Effective for tax years beginning on or after January 1, 2000.**

Qualified Transportation Credit. A tax credit of \$25.00 per employee for any "qualified transportation fringe benefit" provided by an employer to an employee as provided in Section 132(f) of the IRS Code of 1986. **Effective for tax years beginning on or after January 1, 2001.**
